What is MEMBER's Choice® Credit Disability Insurance?

It's a way to help protect your loan. There's no way anyone can predict a total disability due to injury or illness, but you can take steps along the way to make sure your family is provided for if the unexpected were to happen to you. Credit Disability insurance may help make your loan payment when you and your family need it most.*

How Does It Work?

The premium may be included with your monthly loan payment. If you have a balance on your loan at the time of a total disability, Credit Disability insurance may help make your loan payment.*

By taking a few simple steps while signing your loan paperwork, you're taking responsibility for your family's financial future. Credit Disability insurance may help cover your loan payment if you're totally disabled due to a covered illness or injury.*

You can cancel coverage at any time if you change your mind. If coverage is canceled within the first 30 days you will receive a full refund if premium has been paid. Coverage is immediate for eligible borrowers.

Why Is It Valuable?

Some disability insurance pays only a fraction of your salary and that's if you qualify. Credit Disability insurance may help make your loan payments while you're totally disabled due to a covered illness or injury. That means you and your family can use your savings for other important things.

The Facts on Protecting Your Loan

Nearly 60% of consumers are concerned about supporting themselves and unable to work if they are disabled. Nearly 2 in 4 twenty-year-olds will be disabled before age 67.*
